

Hello: First, I would like to thank Senator Gerratana, Representative Ritter and the members of the Public Health Committee for submitting this bill. As a parent of a disabled adult, I don't think anyone is aware of the constant worry that when I am no longer able to care for my daughter what resources she will have available to provide her with the basic necessities to be able to function in society. I think it is a disservice to them to keep eliminating vital services and provisions for them and we need to make sure that they are given the same rights and privileges as we would with any human being. I support this bill and hope it gets passed- it will be a step in the right direction! Thank you- MH

Mary Hart
